

Christy Wallace, BS, CALM, LNFA

Administrator, Trinity Care Center

The compassionate and professional care that has been a hallmark of Trinity Care Center was recognized by being named one of America's Best Nursing Homes by Newsweek®, the only one in the greater Austin region. The advanced community provides short-term rehabilitation for patients who need to recover after hospitalization, as well as long-term care for those who need the additional support. A team of medical experts collaborate with residents, families, and their care teams on individualized plans to restore the highest functional level possible.

Christy started her Trinity administrator role in May 2022, but she started her long-term care profession at 15 as a CNA, and she has been in senior care for most of her career.

She has a Bachelor of Science in Health Professions, a CALM Assisted Living Certificate, and her Nursing Home Administrator's license. Christy's favorite part of her job is visiting with residents and learning their various backgrounds and listening to wonderful life stories.

She has one son in the US Navy (and she's a proud Navy Mom!) She loves gardening and spending time with her teacup Yorkie, Harper, who also visits residents every day. And something you may not know about Christy – she is an adrenaline junkie – she used to race motorcycles, she's been skydiving, and she loves roller coasters!
