

Hearthstone Nursing & Rehabilitation

by Caraday Healthcare

Such a great place. Everyone is part of an amazing team. The nursing staff is very attentive to every need of my family member. Any questions regarding their care were addressed quickly and thoroughly. Management was available to answer any and all questions.

Residents thrive in the loving, safe, and secure environment with an array of amenities and engaging programs.

Unlike traditional nursing homes, Hearthstone Nursing & Rehabilitation specializes in caring for high acuity short-term patients and providing compassionate long-term care. Patients who have recently been hospitalized, undergone surgery, received hip or knee replacement surgeries, or have a chronic illness will find an ideal community with comprehensive care and support services delivered by professional caregivers and therapy teams.

Hearthstone's brand new Memory Care program focuses on the individual, creating an environment that fosters independence and restores the self-esteem and dignity they have earned throughout their lives. Sensitive to the impact memory loss has on every person and their support system, Hearthstone's memory care nurses and therapists work diligently with physicians to provide a plan of care for each resident.

During the COVID-19 pandemic, Hearthstone stepped up to respond to community needs and opened the first Specialized Isolation Unit in the area to care for senior patients as they were discharged from area hospitals.
