

# Jasmine Duff, RN

## Director of Nursing, Hearthstone Nursing and Rehabilitation

Unlike traditional nursing homes, Hearthstone Nursing & Rehabilitation specializes in caring for high-acuity, short-term patients while also providing compassionate long-term care. Patients who have recently been hospitalized, undergone surgery, received hip or knee replacement surgeries, or have a chronic illness will find an ideal community with comprehensive care and support services delivered by professional caregivers and therapy teams.

Jasmine Duff, RN is a director of nursing with a strong track record of leadership across long-term care and skilled nursing settings. She has advanced through roles as a CNA and LVN to RN leadership, bringing a well-rounded clinical perspective and hands-on understanding of care delivery at every level.

Jasmine's expertise includes clinical operations, regulatory compliance, survey readiness, infection prevention, and quality improvement. She is CDC certified in infection prevention and is known for strengthening team performance, stabilizing staffing, and fostering a collaborative, accountable care environment focused on consistent, high-quality outcomes.

She is driven by the opportunity to improve residents' quality of life while supporting and developing compassionate, high-performing nursing teams. Her leadership centers on creating stable environments where both residents and staff can thrive.

Outside of work, Jasmine enjoys spending time with her family and traveling—often cheering on her daughter at volleyball tournaments. She also has a passion for skincare and enjoys creating products for family and friends.
