

TLC East Nursing & Rehabilitation

by Caraday Healthcare

“ It is so hard seeing your mother decline with memory loss. But the staff here is amazing and we know my mom is at the best place for what she needs.

Residents thrive in the loving, safe, and secure environment with an array of amenities and engaging programs.

With its deep roots serving the community in Temple, TLC East Nursing & Rehabilitation provides a broad continuum of short-term rehabilitation, long-term care, and memory care programs with advanced clinical capabilities to support the most complex care. Rehab residents follow their own individual care programs to archive the highest level of function and for many that means being discharged home within 24 days.

Sensitive to the impact memory loss has on every person and their support system, TLC East memory care nurses and therapists work diligently with physicians to provide a plan of care for each resident. The focus is on the individual, creating an environment that fosters independence and restores the self-esteem and dignity they have earned throughout their lives.
