

TLC West Nursing & Rehabilitation

by Caraday Healthcare

The staff here is amazing. My father has had so many complications from lung disease and they are amazing at taking care of his needs. They have been so good at teaching us how to take care of him when he goes back home.

Residents thrive in the loving, safe, and secure environment with an array of amenities and engaging programs.

Recognized in the community for its stellar advanced care, TLC West Nursing & Rehabilitation provides the highest level of short-term rehabilitation for patients who need to recover after hospitalization, as well as long-term care for those who need the additional support. The focus is on recovering and returning to daily living as quickly as possible.

TLC West embraces a holistic approach, with care encompassing not only physical needs, but also emotional and spiritual needs. Our engaging enrichment program provides a wide variety of activities for residents with all levels of physical ability.

Because creating a safe and healthy environment for living and healing is a key priority, TLC West has implemented the most advanced technology to safely clean the air within the community.
