

Western Hills Nursing & Rehabilitation

by Caraday Healthcare

I just wanted to share our family's deep appreciation for all the advice your staff gave. My mom is still at Western Hills and we've had multiple window visits. I'm pretty sure I speak on everyone's behalf when I say that we continue to be impressed with Western Hills.

Residents thrive in the loving, safe, and secure environment with an array of amenities and engaging programs.

Deeply rooted in Temple, Western Hills Nursing & Rehabilitation is a pillar of the community, providing a continuum of skilled care including short-term rehabilitation, post-surgery recovery, and long-term care. Along with our medical director and physicians, our team of healthcare experts and caregivers create individualized care plans to help residents reach the highest level of function possible.

The homelike environment at Western Hills nurtures a sense of calm and ease so that the focus is solely on recovery and quality of life. Our return-to-home program evaluates all aspects of a resident's life to help develop a plan to ensure success when they return to home after therapy.

Throughout the journey, our team of professionals helps residents and their families with emotional and spiritual needs through ongoing communications and support. We feature daily activity programs and encourage all residents to participate at their own pace.
