

Weston Inn Nursing & Rehabilitation

by Caraday Healthcare

I am so grateful for the Caraday Healthcare Weston Inn staff because they are so caring and compassionate. I am so comforted to know my father is being taken care of by a staff that genuinely cares.

Residents thrive in the loving, safe, and secure environment with an array of amenities and engaging programs.

Across the journey of recovery and health, Weston Inn Nursing & Rehabilitation provides short-term rehabilitation programs for patients who quickly need to recover after hospitalization, as well as long-term care for those who need the additional support. In collaboration with our medical director and physicians, a team of healthcare professionals develop personalized care plans to get to the highest level of function possible.

Weston Inn's gracious community eases residents into focusing solely on building their health. And they appreciate being able to recover in their own private rooms. Our return-to-home program evaluates all aspects of a resident's life to help develop a plan to ensure success when they return to home after therapy.

Because creating a safe and healthy environment for living and healing is a key priority, Weston Inn has implemented the most advanced technology to safely clean the air within the community.
