

# A Place for Dignity and Care A Place to Call Home

**Caraday of Houston's new Memory Care program has a singular focus,** creating an environment that focuses on the individual. The community fosters independence and aims to restore the self-esteem and dignity that residents have earned throughout their lives.

**Sensitive to the impact memory loss has on every person and their support system,** Caraday of Houston's memory care program is led by a team trained in cognitive impairments. Nurses and therapists collaborate with physicians to provide a plan of care for each resident. The needs and personal interests of each resident are met with a blend of compassionate and highly professional care.

**Throughout the journey, a team of professionals helps residents and their families with emotional and spiritual needs** through ongoing communications and support. Daily activities and programs encourage residents to participate at their own pace and pursue their interests in such offerings as music and memory, nurturing care, and even carpentry.

**The co-ed secured wings create a sense of home where patient centered care is at the heart of what we do!**

**Caraday**  
of Houston
